Candidate's Score per Task																				

SECTION A (30 marks)

Read the instructions carefully.

1. You have been given this question paper and a separate answer sheet.
2. Answer **ALL** questions in this section on the **ANSWER SHEET** provided, **NOT** in the question paper.
3. Do all the necessary rough work in the question paper.

HOW TO USE THE ANSWER SHEET

4. Use an ordinary HB pencil.
5. Confirm that the answer sheet you have been provided with has the following:

   YOUR ASSESSMENT NUMBER

   YOUR NAME

   NAME OF YOUR SCHOOL

   NAME OF THE SUBJECT

6. Keep the answer sheet clean, dry and **DO NOT** fold it.
7. For each of the questions **1 – 30,** four options are given. The options are lettered **A, B, C** and **D.** In each case, only **ONE** of the four options is correct. Choose the **correct** answer from the options.
8. On the answer sheet, the correct answer is to be shown by drawing a **dark line** inside the box in which the letter you have chosen is written.

   Example

   In the Question Booklet:

   13. Pre-Technical studies is one of the learning areas in Junior School. Which one of the following represents the components of Pre-Technical studies?
       - A. Technical, Entrepreneurship and Business Studies.
       - B. Technical, Computer Studies and Business Studies.
       - C. Technical, Entrepreneurship and Computer Studies.
       - D. Technical, Information Technology and Business Studies

SECTION A: (30 Marks)

Answer all questions in this section

1. **Which of the following is NOT a safety precaution in the work environment?**

A. Wearing safety gear
B. Using damaged tools
C. Keeping the workplace clean
D. Following safety guidelines

2. **Which of the following is an example of an online threat?**
A. Firewall protection
B. Phishing scams
C. Data backup
D. Using strong passwords
3. **What is the function of a VGA cable when connecting a projector?**

A. Transmitting power
B. Transmitting video signals
C. Providing internet connection
D. Transmitting audio signals

4. Which of the following is NOT a type of artistic drawing?
A. Graffiti
B. illustrations
C. mechanical
D. Portrait
5. The best measuring tool for checking the diameter of a pipe is:
A. Tape measure
B. Vernier caliper
C. Protractor
D. Ruler
6. One function of money is:
A. To be used as decoration
B. To be a medium of exchange
C. To increase inflation
D. To control economic resources
7. Which of the following is an example of a non-metallic material?
A. Aluminum
B. Copper
C. Rubber
D. Iron
8. Which fire extinguisher is used for electrical fires?

A. Water
B. Foam
C. Carbon dioxide (CO_2)
D. Sand

9. Which of the following is NOT a function of an input device?
   A. Entering data into a computer
   B. Processing data
   C. Scanning documents
   D. Typing text

10. Which of the following is an example of a storage device?
   A. Printer B. USB flash drive
   C. Monitor D. Keyboard

11. What is the function of a CPU in a computer?

   A. Input data
   B. Process information
   C. Store permanent files
   D. Display images

12. Which of the following is a cause of fire in the workplace?
   A. Proper storage of chemicals
   B. Overloading electrical sockets
   C. Using fire extinguishers
   D. Regular fire drills

13. The two main categories of economic resources are:
   A. Natural and human resources
   B. Expensive and cheap resources
   C. Renewable and unlimited resources
   D. Solid and liquid resources

14. Which of the following is NOT a measuring tool?
   A. Ruler B. Tape measure
   C. Vernier caliper D. Hammer

15. Which type of business transaction involves exchanging goods for money?
   A. Barter trade
   B. Credit purchase
   C. Cash transaction
   D. Lease agreement

16. What is the main use of a protractor in technical drawing?
   A. Measuring angles
   B. Drawing straight lines
   C. Measuring length
   D. Sharpening pencils

17. Which of the following is an ethical practice in communication?
   A. Spreading false information
   B. Respecting confidentiality
   C. Ignoring customer feedback
   D. Using abusive language

18. What is the main purpose of budgeting?
   A. To overspend money
   B. To plan income and expenses

A) Keeping them near electrical appliances

B) Storing them in a cool, dry place

C) Leaving them uncovered for easy access

D) Mixing them with non-flammable materials

22. A student is learning about computer components. Which of the following is an example of an input device?

A) An output device

B) An input device

C) A storage device

D) A processing device

23. A draftsman is preparing a technical drawing. Which of the following is a method of dimensioning?

A) Freehand sketching

B) Oblique drawing

C) Parallel dimensioning

D) Isometric projection

24. A manager wants to improve communication in the workplace. What is one function of communication in this environment?

A) Reducing customer complaints

B) Enhancing teamwork and decision-making

C) Increasing product prices

D) Eliminating competition

25. A business is setting goals for the upcoming financial year. Which of the following is NOT a financial goal?

A) Profit maximization

B) Increasing costs unnecessarily

C) Reducing expenses

D) Expanding the business

26. A financial analyst explains who regulates money supply in Kenya. Who controls the Kenyan currency?

A) County governments

B) Central Bank of Kenya

C) Ministry of Trade

D) Commercial banks

27. A plastic manufacturing company produces everyday household items. Which of the following is a synthetic non-metallic material?

A) Glass

B) Leather

C) Plastic

D) Wood

28. A company wants to protect customer data from hackers. What is the best way to reduce cyber threats in a business?

A) Installing updated antivirus software

B) Using public Wi-Fi for transactions

C) Sharing passwords with all employees

D) Storing customer data on unsecured websites

29. During a communication workshop, a trainer asks students to identify the correct process of communication. Which option is correct?

A) Sender → Receiver → Message → Feedback

B) Message → Receiver → Sender → Feedback

C) Sender → Message → Receiver → Feedback

D) Receiver → Message → Sender → Feedback

30. A restaurant kitchen experiences an electrical fire. Which type of fire extinguisher should be used?

A) Paper and wood fires

B) Oil and grease fires

C) Electrical fires

D) All types of fires

SECTION B (50 Marks)

4. This paper consists of **two** sections: **A** and **B**.
5. **Section A** comprises Multiple Choice Questions.
6. **Section B** comprises Short Structured questions.
7. Answer **ALL** the questions in section A on the separate **ANSWER SHEET** provided.
8. Answer **ALL** the questions in section B in the spaces provided in this question paper.
9. Do not remove any page from this question paper.
10. Answer all questions in **English.**

For official use only

SECTION B

Task	Total Questions	Max Score per Task	Candidate's Score per Task
Task 1		25	
Task 2		12	
Task 3		13	
TOTAL SECTION B		**50**	

This paper consists of 7 printed pages. Candidates should check the question paper to ascertain that all the pages are printed as indicated and that no questions are missing.

SECTION A: (30 MARKS)

Answer all questions.

1. What is the main purpose of safety signs in the workshop?
   A. To decorate the room.
   B. To guide users on how to build.
   C. To warn and inform about dangers.
   D. To show product prices.
2. Which of the following is used to fasten wooden pieces together permanently?
   A. G-clamp
   B. Wood glue
   C. Measuring tape
   D. Mallet
3. Which tool is most suitable for smoothing the surface of a wooden plank?
   A. Hacksaw
   B. Screwdriver
   C. Jack plane
   D. Rasp
4. The main reason for learning entrepreneurship in Pre-Technical Studies is to
   A. become a banker.
   B. get employment only.
   C. create and run businesses.
   D. avoid studying other subjects.
5. Identify the tool used to tighten and loosen bolts.
   A. Mallet
   B. Spanner
   C. Divider
   D. Pliers
6. One of the following is **NOT** a safety precaution when using electricity. Which one?
   A. Dry your hands before touching a switch.
   B. Use worn-out wires.
   C. Switch off when not in use.
   D. Keep water away from sockets.
7. A learner wants to design a label for their school club using a computer. Which type of software will they most likely use?
   A. Spreadsheet
   B. Presentation
   C. Word processor
   D. Desktop publishing
8. Which of the following materials is best suited for making a cooking pot?
   A. Plastic
   B. Aluminium
   C. Glass
   D. Wood
9. Which characteristic is shown by a good entrepreneur when they quickly adapt to new technology?
   A. Creativity
   B. Flexibility
   C. Risk-taking
   D. Patience
10. One of the following is a **non-metallic** material. Which one is it?
    A. Copper
    B. Zinc
    C. Plastic
    D. Aluminium
11. Identify the correct order of the communication process.
    A. Feedback → Receiver → Message → Sender
    B. Sender → Message → Receiver → Feedback
    C. Receiver → Feedback → Message → Sender
    D. Message → Receiver → Sender → Feedback
12. Which property makes metals good for making electrical wires?
    A. Malleability
    B. Strength
    C. Conductivity
    D. Density
13. Which machine is commonly used for mixing concrete on construction sites?
    A. Welding machine
    B. Milling machine
    C. Concrete mixer
    D. Lathe machine
14. The following are all types of lines in technical drawing EXCEPT:
    A. Hidden lines
    B. Border lines
    C. Construction lines
    D. Background lines
15. Which is an example of an **output** device?
    A. Monitor
    B. Mouse
    C. Keyboard
    D. Scanner
16. A source of passive income is
    A. wage.
    B. salary.
    C. interest.
    D. commission.

17. The part of a business that shows total investment by the owner is known as
    A. liability.
    B. capital.
    C. stock.
    D. expenses.
18. A **laptop** is preferred for fieldwork because it is
    A. fast.
    B. portable.
    C. cheap.
    D. upgradeable.
19. A tool used to draw arcs in technical drawing is called
    A. T-square.
    B. Ruler.
    C. Compass.
    D. Divider.
20. The tool shown below is used to
    ![Tool Image Placeholder]
    A. screw nails.
    B. plane wood.
    C. hammer metal.
    D. hold objects tightly.
21. The material used for making floor tiles is
    A. clay.
    B. iron.
    C. rubber.
    D. copper.
22. The following are properties of **softwood** EXCEPT:
    A. Grows fast
    B. Light in weight
    C. Broad leaves
    D. Less expensive
23. When a consumer is overcharged, which body should they report to?
    A. KNEC
    B. KRA
    C. CA
    D. CAK
24. Which of these factors should be considered before selecting a business site?
    A. Beauty of the area
    B. Friends nearby
    C. Proximity to customers
    D. Number of trees
25. Which device connects a computer to the internet?
    A. Keyboard
    B. Scanner
    C. Modem
    D. Printer
26. The act of putting off fire by removing fuel is called
    A. interrupting.
    B. starving.
    C. smothering.
    D. cooling.
27. A learner wants to increase the **brightness** of their computer screen. Which key should they use?
    A. Volume Up
    B. F2 or brightness key
    C. Escape
    D. Enter
28. Which one of the following is **NOT** a component of Pre-Technical Studies?
    A. Business Studies
    B. Creative Arts
    C. ICT
    D. Technical Studies
29. The diagram below shows a common hand tool. What is the tool used for?
    ![Tool Image Placeholder]
    A. Filing wood
    B. Tightening nuts
    C. Planing timber
    D. Cutting metal
30. Which of the following is the correct formula for calculating profit?
    A. Profit = Sales – Loss
    B. Profit = Expenses – Capital
    C. Profit = Revenue – Expenses
    D. Profit = Sales + Capital

SECTION B:(50 Marks)

Answer all questions.

TASK 1:

31. You and your classmates are making a **simple wooden stool** during a Pre-Tech practical lesson. Your role is to help with **measuring, drawing, and fire safety** in the workshop.

a) List **three measuring tools** you will use in the project. (3 marks)

i. _____

ii. _____

iii. _____

b) State **two reasons** why dimensioning is important in a technical drawing. (2 marks)

i. _____

ii. _____

c) Sketch a simple **rectangle** and show how to dimension its **length and width**. (3 marks)

d) Identify **two fire prevention measures** you must observe when working with wood and glue. (2 marks)

i. _____

ii. _____

e) Give **two examples of synthetic materials** that can be used in technical projects. (2 marks)

i. _____

ii. _____

f) Explain how to safely use a **CO_2 fire extinguisher** in case of a workshop fire. (3 marks)

_____

_____

_____

g) What is the purpose of a **technical drawing** before starting the project? (2 marks)

_____

_____

TASK 2:

32. Mama Cate wants to start a **small bakery business**. He needs to calculate profits, choose materials, and prepare a business plan.

a) Juma buys ingredients for KSh 1,500 and sells cakes worth KSh 2,200.

What is his **profit**? Show your working. (3 marks)

b) Suggest **three characteristics** that will help Juma succeed as an entrepreneur. (3 marks)

i. _____

ii. _____

iii. _____

c) Mention **two reasons** why it is important for Juma to keep business records. (2 marks)

i. _____

ii. _____

d) List **two challenges** Juma might face when starting his bakery. (2 marks)

i. _____

ii. _____

e) What **factors should Juma consider** when choosing a location for his bakery? (2 marks)

_____

_____

f) Name **three business resources** Juma will need. (3 marks)

i. _____

ii. _____

iii. _____

TASK 3:

33. Fatuma has a computer in her home used for learning, typing assignments, and saving photos.

a) Name **two input devices** she uses to interact with the computer. (2 marks)

i. _____

ii. _____

b) Identify **two output devices** she uses to receive information. (2 marks)

i. _____

ii. _____

c) Explain the difference between **hardware** and **software** in a computer. (2 marks)

_____

_____

d) Fatuma stores her school files in **Google Drive**. What is this type of storage called? (1 mark)

_____

e) State **two benefits of using cloud storage**. (2 marks)

i. _____.

ii. _____.

f) Fatuma downloaded an email attachment with a virus. List **two ways** to protect her computer from viruses. (2 marks)

i. _____.

ii. _____

g) Why is it important for Fatuma to follow **online safety rules** when using the internet? (2 marks)

SECTION A: MULTIPLE CHOICE QUESTIONS (30 Marks)

Choose the most appropriate answer.

1. The main reason for wearing protective clothing in the workshop is to:
   A. Look smart
   B. Prevent injuries
   C. Impress visitors
   D. Reduce costs
2. Which line is used to show the outer edges of an object in a drawing?
   A. Centre line
   B. Outline
   C. Hidden line
   D. Break line
3. Which of the following is NOT an example of a storage device?
   A. Hard disk
   B. Flash disk
   C. RAM
   D. DVD
4. The most suitable software for making presentations is:
   A. Excel
   B. PowerPoint
   C. Paint
   D. Word
5. Which characteristic is NOT true of metallic materials?
   A. Good conductor of heat
   B. Malleable
   C. Poor conductor of electricity
   D. Lustrous
6. What should be done first when a person suffers electric shock in the workshop?
   A. Pour water on the victim
   B. Switch off the power supply
   C. Call a doctor immediately
   D. Shake the person to wake him up
7. The tool shown below is mainly used for?

   A. Cutting metal
   B. Tightening bolts
   C. Measuring angles
   D. Holding workpieces
8. Which is an example of a softwood?
   A. Mahogany
   B. Teak
   C. Pine
   D. Ebony
9. An entrepreneur is someone who:
   A. Waits for employment
   B. Starts and manages a business
   C. Works as a volunteer
   D. Collects taxes
10. Which of the following is a striking tool?
    A. Spanner
    B. Clamp
    C. Mallet
    D. File
11. The main purpose of dimension lines in a technical drawing is to:
    A. Indicate hidden features
    B. Show sizes of objects
    C. Beautify drawings
    D. Divide the paper
12. The government agency responsible for standards and quality marks in Kenya is:
    A. CBK
    B. KEBS
    C. KNEC
    D. NHIF
13. One common cause of fire in homes is:
    A. Proper wiring
    B. Overheating of cooking oil
    C. Regular maintenance
    D. Use of safety switches
14. Which is NOT a hazard in the workshop?
    A. Poor ventilation
    B. Good housekeeping
    C. Exposed wires
    D. Spilled oil
15. The main function of a computer operating system is to:
    A. Connect computers to the internet
    B. Control hardware and software
    C. Type documents
    D. Store movies
16. A shape with eight equal sides is called a:
    A. Hexagon
    B. Pentagon
    C. Octagon
    D. Nonagon

17. The symbol below represents which safety instruction?

A. Corrosive
B. Flammable
C. Toxic
D. Radioactive

18. Which of the following is NOT an example of a synthetic material?
A. Rubber
B. Nylon
C. Wool
D. Plastic
19. The first step in budgeting is to:
A. Spend money
B. Estimate income
C. Borrow from friends
D. Pay debts
20. Which is the BEST example of an output device?
A. Scanner
B. Mouse
C. Monitor
D. Keyboard
21. One way of protecting investors in Kenya is through:
A. Capital Markets Authority
B. Ministry of Tourism
C. Postal Corporation
D. Red Cross
22. Which instrument is used to measure small internal diameters?
A. Ruler
B. Micrometer screw gauge
C. Vernier caliper
D. Tape measure
23. A simple tool used for smoothing wood is a:
A. Hammer
B. Plane
C. Chisel
D. Saw
24. Which drawing method shows three dimensions of an object?
A. Isometric projection
B. Orthographic drawing
C. Freehand sketching
D. Oblique projection
25. A major disadvantage of polythene bags is that they:
A. Are cheap
B. Decompose easily
C. Pollute the environment
D. Can be reused
26. Which device is mainly used for scanning documents?
A. Keyboard
B. Microphone
C. Scanner
D. Projector
27. A material made from mixing sand, gravel, water and cement is:
A. Glass
B. Concrete
C. Clay
D. Plastic
28. Which of the following is a feature of good money?
A. Easily destroyed
B. Acceptable by all
C. Must have no value
D. Should be heavy
29. A person who delays gratification and sets aside part of his income is practicing:
A. Spending
B. Saving
C. Borrowing
D. Wasting
30. A visual programming language is different from text-based programming because it:
A. Uses blocks and icons
B. Uses only numbers
C. Is difficult to learn
D. Cannot be applied in projects

SECTION B: STRUCTURED QUESTIONS (50 Marks)

31. Mary wants to start a tailoring business.

a) List three resources she needs to start the business. (3 marks)

i. _____

ii. _____

iii. _____

b) State two reasons why keeping financial records is important. (2 marks)

i. _____

ii. _____

32. During a clean-up activity, learners collected different wastes.

a) Mention three biodegradable wastes. (3 marks)

i. _____

ii. _____

iii. _____

b) State two advantages of recycling waste. (2 marks)

i. _____

ii. _____

33. In technical drawing lessons:

a) State two advantages of using instruments when drawing. (2 marks)

i. _____

ii. _____

b) Name two types of projection drawings. (2 marks)

i. _____

ii. _____

34. A carpenter uses both hardwood and softwood.

a) State two uses of softwood. (2 marks)

i. _____

ii. _____

b) Give two examples of hardwoods. (2 marks)

i. _____

ii. _____

35. Tools and equipment are important in Pre-Technical Studies.

a) List two marking-out tools. (2 marks)

i. _____

ii. _____

b) Give two ways of maintaining workshop tools. (2 marks)

i. _____

ii. _____

Computers face various security threats.

a) Identify two computer viruses. (2 marks)

i. _____

ii. _____

b) State two ways of preventing unauthorized access to computer data. (2 marks)

i. _____

ii. _____

37. Raised platforms are sometimes used in construction.

a) Give two uses of scaffolds/raised platforms. (2 marks)

i. _____

ii. _____

b) Mention two dangers of using raised platforms carelessly. (2 marks)

i. _____

ii. _____

Below is Jane's family budget for February 2025.

Income

Sale of eggs – Ksh. 12,000

Sale of beans – Ksh. 8,500

Salary – Ksh. 20,000

Expenses

Rent – Ksh. 10,000

School fees – Ksh. 12,500

Food – Ksh. 7,000

Transport – Ksh. 3,000

Entertainment – Ksh. 2,000

Savings – Ksh. 6,000

Task

a) Calculate the total income. (2 marks)

b) Calculate the total expenses. (2 marks)

39. Visual programming is taught in junior secondary.

a) Define visual programming. (2 marks)

---

b) Identify two features of Scratch programming environment. (2 marks)

i. _____

ii. _____

40. Fire safety is important in workshops.

a) State two causes of fire in a school laboratory. (2 marks)

i. _____

ii. _____

b) Give two fire safety rules learners should observe. (2 marks)

i. _____

ii. _____

	Task 2		12
	Task 3		13
TOTAL			80

SECTION A: MULTIPLE CHOICE QUESTIONS (30 marks)

1. A workshop had a raised platform for operating a circular saw. The main reason for raising it was:
   A. To decorate the workshop
   B. To prevent accidents and ease operation
   C. To increase machine speed
   D. To improve lighting

2. A Grade 8 class was disposing used paint containers. Which disposal method is the safest?
   A. Burning them in open air
   B. Throwing them in school dustbin
   C. Recycling or delivering to hazardous waste center
   D. Burying them in school garden

3. Oblique projection shows the front view of an object:
   A. In true shape B. Shortened
   C. At 45° only D. Distorted

4. A farmer cut trees to make furniture. Before use, the timber was seasoned. Which is NOT a method of seasoning?
   A. Air drying
   B. Kiln drying
   C. Chemical spraying
   D. Solar drying

5. Which of the following is a **hardwood tree** in Kenya?
   A. Pine
   B. Cypress
   C. Mahogany
   D. Cedar

6. Waste materials such as fruit peels are classified as:
   A. Hazardous waste
   B. Biodegradable waste
   C. Non-biodegradable waste
   D. Electronic waste

7. A clamp is best described as a:
   A. Cutting tool
   B. Holding tool
   C. Driving tool
   D. Measuring tool

8. A hammer is used mainly for:
   A. Cutting timber
   B. Driving nails
   C. Boring holes
   D. Holding materials

9. Which one is **NOT** a function of the Central Bank of Kenya?
   A. Printing money
   B. Controlling inflation
   C. Giving loans to farmers directly
   D. Regulating commercial banks

10. SACCOs are financial institutions mainly formed to:
    A. Provide loans to members at low interest
    B. Print new currency
    C. Collect government revenue
    D. Regulate banks

11. In a business plan, the section describing **how the business will attract customers** is:
    A. Executive summary
    B. Marketing strategy
    C. Financial projection
    D. Appendices

12. A **direct tax** is paid on:
    A. Income and profits
    B. Goods and services
    C. Imports
    D. Petroleum products

13. Which of the following is NOT an online threat?
    A. Viruses
    B. Strong passwords
    C. Phishing
    D. Hacking

14. A Scratch program uses:
    A. Block-based coding
    B. Text-only coding
    C. Spreadsheets
    D. Animation only

15. A **bench vice** belongs to which class of tools?
    A. Measuring
    B. Holding
    C. Driving
    D. Cutting

16. A spanner is mainly used for:
    A. Cutting wood
    B. Tightening or loosening bolts
    C. Holding metal
    D. Boring holes

17. Which of the following is a non-biodegradable material?
    A. Vegetable remains
    B. Broken glass
    C. Paper
    D. Food leftovers

18. A Grade 7 learner drew an object where the sides were at equal 120° angles. This type of projection is:
    A. Oblique
    B. Orthographic
    C. Isometric
    D. Perspective

19. The institution that collects taxes in Kenya is:
    A. CBK
    B. KRA
    C. KEBS
    D. SACCO

20. Which component is NOT part of a business plan?
    A. Financial projections
    B. Production plan
    C. Sports timetable
    D. Marketing strategy

21. A driving tool among the following is:
    A. Chisel
    B. Saw
    C. Screwdriver
    D. Clamp

22. An example of softwood tree in Kenya is:
    A. Mvuli
    B. Meru Oak
    C. Pine
    D. Mahogany

23. Which of the following is NOT a service offered by commercial banks?
    A. Savings
    B. Loans
    C. Tax collection
    D. Money transfer

24. A carpenter re-used sawdust to make particle boards. This practice demonstrates:
    A. Recycling
    B. Reuse
    C. Disposal
    D. Burning

25. Which programming concept in Scratch allows repeating instructions?
    A. Variables
    B. Loop
    C. Event
    D. Block

26. Which symbol represents flammable materials?
    A. Fire flame
    B. Skull and bones
    C. Triangle with exclamation mark
    D. Circle with cross

27. A learner created a sketch by hand before using instruments. This is called:
    A. Oblique drawing
    B. Isometric drawing
    C. Freehand sketching
    D. Orthographic projection

28. The main role of microfinance institutions is to:
    A. Regulate banks
    B. Give loans to low-income earners
    C. Print currency
    D. Collect taxes

29. Which tax is charged on goods and services in Kenya?
    A. Income tax
    B. VAT
    C. Excise duty
    D. Corporate tax

30. Which government agency is responsible for business registration in Kenya?
    A. KEBS
    B. Huduma Kenya
    C. Registrar of Companies
    D. CBK

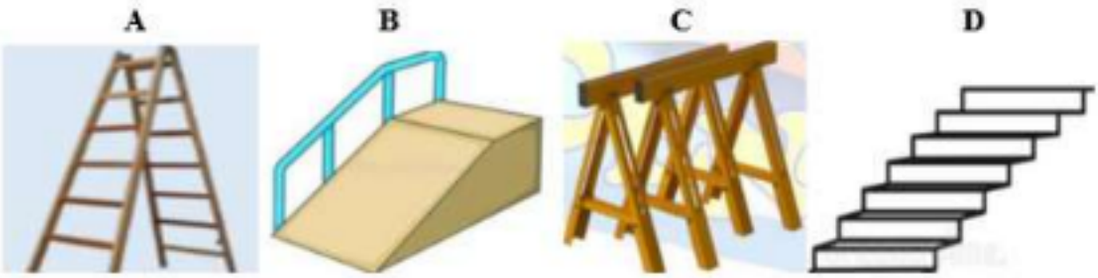
SECTION B: STRUCTURED QUESTIONS (50 Marks)

PART 1: PRE-TECHNICAL STUDIES (20 Marks)

31.

During a Grade 7 practical lesson, learners were required to work on a raised platform around a drilling machine.

a.) Name the following raised platforms



A:_____

B:_____

C:_____

D:_____

b.) State **three** safety measures to observe when using the raised platforms above.

i)_____

ii)_____

iii)_____

c.) Give **two** importance of observing safety when using raised platforms.

i)_____

ii)_____

b) Give two safety precautions learners should observe when using the platform. (2 marks)

i)_____

ii)_____

32.

A furniture workshop in Nakuru uses both hardwood and softwood.

a) Name two examples of hardwood trees found in Kenya. (2 marks)

i)_____

ii)_____

b) Give two advantages of seasoning wood. (2 marks)

i)_____

ii)_____

c) Name one holding tool and one driving tool used in woodworking. (2 marks)

i)_____

ii)_____

33.

A Grade 8 learner was asked to represent a box using oblique projection.

a) Define oblique projection. (2 marks)

_____

_____

_____

b) State two differences between oblique and isometric projection. (2 marks)

i)_____

ii)_____

PART 2: BUSINESS STUDIES (15 Marks)

34.

A farmer in Kisii joined a SACCO to access loans for farm inputs.

a) State two functions of SACCOs. (2 marks)

i)_____

ii)_____

b) Give two services provided by commercial banks. (2 marks)

i)_____

ii)_____

c) State one difference between SACCOs and microfinance institutions. (2 marks)

i)_____

35.

A youth group in Nairobi is preparing a business plan for a poultry project.

a) State three components of a business plan. (3 marks)

i)_____

ii)_____

iii)_____

b) Explain two ways the government supports small businesses. (2 marks)

i)_____

ii)_____

36.

A local shopkeeper pays different taxes to the government.

a) Give two examples of direct taxes. (2 marks)

i)_____

ii)_____

b) Give two examples of indirect taxes. (2 marks)

i)_____

ii)_____

PART 3: COMPUTER STUDIES (15 Marks)

37. Visual Programming

A Grade 9 learner created a Scratch game where a sprite moves when an arrow key is pressed.

a) Explain what a sprite is. (2 marks)

_____

_____

b) State two advantages of using Scratch in teaching programming. (2 marks)

i)_____

ii)_____

c) Name two examples of visual programming languages apart from Scratch. (2 marks)

i)_____

ii)_____

38.

During ICT lessons, learners were warned about online threats.

a) State two examples of online threats. (2 marks)

i)_____

ii)_____

b) Suggest two ways learners can stay safe online. (2 marks)

i)_____

ii)_____

39.

A shopkeeper uses a computer to keep sales records.

a) State two advantages of using computers in record keeping. (2 marks)

I)_____

ii)_____

b) List two input devices the shopkeeper may use. (2 marks)

i)_____

II)_____

SECTION A: (30 MARKS)

Answer ALL questions in this section on the separate answer sheet provided

1. During a construction lesson, learners mixed cement, sand, and gravel with water to make a strong building material. Which composite material were they preparing?
   A. Brick B. Concrete C. Clay D. Stone
2. Wanjiku used paper pulp and glue to make a decorative flower vase. The material she used is called:
   A. Paper maché
   B. Manufactured board
   C. Ceramic
   D. Concrete
3. A pottery workshop in Kisii uses clay to make cooking pots and decorative items. What property makes ceramics suitable for this purpose?
   A. High ductility B. Heat resistance
   C. Magnetism D. Flexibility
4. A carpenter used chipboard to make school furniture. Chipboard is classified as:
   A. Natural composite
   B. Manufactured board
   C. Ceramic material
   D. Metallic material

5. In a metal workshop, learners used a tool with fine teeth to cut through pipes. Which tool was it?
   A. Chisel B. Hacksaw
   C. Plane D. Snip
6. A carpenter uses a plane regularly. To keep it in good condition, the cutting blade should be:
   A. Dull B. Oiled and sharpened
   C. Left dirty D. Hit with a hammer
7. During a lesson on safety, the teacher warned against touching the blade of a stripper. What is the main purpose of this tool?
   A. Cutting wires
   B. Measuring angles
   C. Stripping insulation from wires
   D. Holding materials
8. Which of the following best describes the importance of cutting tools in production?
   A. They add colour to items
   B. They shape and size materials accurately
   C. They measure materials
   D. They decorate finished goods

9. Learners visited a local salon. Which factor most likely influenced its location?
   A. Near a forest
   B. Close to customers
   C. Far from other businesses
   D. On a hill
10. A posho mill uses machines that occupy large space. What factor determines its size?
   A. Colour of walls
   B. Number of customers
   C. Size of equipment used
   D. Availability of chairs
11. In a bookkeeping lesson, learners recorded money received from sales and money spent on goods. This activity is called:
   A. Marketing
   B. Bookkeeping
   C. Auditing
   D. Budgeting
12. Wekesa prepared a simple income statement. Which of the following is *not* a component of the statement?
   A. Assets
   B. Liabilities
   C. Profit and Loss
   D. Radius
13. A cybercafé owner pays rent and salaries monthly. These are examples of:
   A. Credit transactions B. Cash transactions
   C. Assets D. Capital

14. Mary earns KSh 5,000 per month from her tailoring shop. This money is known as:
   A. Income B. Budget
   C. Expense D. Capital
15. The importance of budgeting for a business is to:
   A. Waste money
   B. Plan for future spending
   C. Hide expenses
   D. Increase debts
16. Which of the following represents an *unethical* practice in budgeting?
   A. Honest record keeping
   B. Exaggerating costs
   C. Saving income
   D. Paying workers on time
17. A learner prepared a budget but forgot to include savings. The budget is:
   A. Effective B. Incomplete
   C. Balanced D. Permanent

18. A metalworker used a try square to check a corner joint. What was he checking?
   A. Height

B. Straightness
C. Right angle
D. Thickness

19. The tool used to measure electric current in a circuit is:
A. Voltmeter B. Ammeter
C. Stopwatch D. Caliper

20. A tailor used a tape measure while making a dress. This tool helps in:
A. Drawing straight lines B. Measuring length
C. Cutting fabric D. Holding fabric

21. An entrepreneur is a person who:
A. Studies business
B. Starts and runs a business
C. Works for others
D. Buys from shops

22. The reward for land as a factor of production is:
A. Wages B. Rent C. Profit D. Interest

23. During a school mini-market, learners sold handmade bracelets. This was an example of:
A. Production of goods and services
B. Waste management
C. Data processing
D. Resource mapping

24. A student used a laptop to type a document. This device is classified as a:
A. Tablet B. Desktop computer
C. Portable computer D. Mainframe

25. The main reason for installing an antivirus program is to:
A. Increase computer speed
B. Prevent data loss and attacks
C. Decorate the computer
D. Save internet data

26. One common online threat where strangers send fake links to steal passwords is called:
A. Cyberbullying
B. Phishing
C. Data backup
D. Impersonation

27. Learners drew a rectangle measuring 8 cm by 4 cm. What type of dimensioning should they use?
A. Angular
B. Linear
C. Radial
D. Arc

28. The thick, dark line used to show visible outlines in technical drawing is known as a:
A. Construction line
B. Centre line
C. Border line
D. Outline

29. A chemical caught fire in a science lab. Which method should be used to put it out?
A. Adding water
B. Using a fire blanket (smothering)
C. Blowing air
D. Sprinkling sand randomly

30. A learner accidentally spilled water on a laptop. To prevent damage, the learner should:
A. Switch it on immediately
B. Dry it and disconnect power
C. Shake it
D. Keep using it

SECTION B: (50 MARKS)

Answer all questions in the spaces provided.

31. During a school project, learners were asked to make a birdhouse using different materials.
a) Mention **three examples** of composite materials they could use. (3mks)
i) _____
ii) _____
iii) _____

b) Explain **two advantages** of using composite materials for construction. (2mks)
i) _____
ii) _____

c) State **one example** of a ceramic material used in the home. (1mk)
i) _____

32. A Grade 8 learner is helping in a woodworking workshop.

a) Identify **three cutting tools** the learner is likely to use. (3mks)

i) _____

ii) _____

iii) _____

b) State **two safety rules** the learner should observe while using these tools. (2mks)

i) _____

ii) _____

33. John owns a cybercafé in town. At the end of the month, he recorded the following:

i. Total income – KSh 60,000
ii. Total expenses = KSh 40,000

a) Calculate his profit. (1mk)

b) State **two components** of a financial statement. (2mks)

i) _____

ii) _____

c) Give **two reasons** why bookkeeping is important in a business. (2mks)

i) _____

ii) _____

d) Identify **two types** of business transactions. (2mks)

i) _____

ii) _____

34. Mary is a tailor. She earns KSh 8,000 monthly. Her expenses are: Rent KSh 2,000, Material KSh 3,000, and Transport KSh 1,000.
a) Prepare a simple budget for Mary. (3mks)

b) Calculate her savings. (1mk)

c) Explain **two reasons** why budgeting is important. (2mks)

i) _____

ii) _____

35. Learners were asked to measure and mark metal sheets accurately.
a) List **four measuring or marking tools** they would use. (2mks)

i) _____

ii) _____

iii) _____

iv) _____

b) State **two functions** of measuring tools. (2mks)

i) _____

ii) _____

c) Explain **two ways** of caring for these tools. (2mks)

i) _____

ii) _____
